OBJECTIVES

1. To design, develop, and deploy scalable web applications that meet the needs of the startup's clients and users, utilizing the latest technologies and frameworks to create high-quality, responsive, and user-friendly interfaces.
2. To collaborate with cross-functional teams, including designers, product managers, and other developers, to ensure seamless integration of frontend and backend systems, while adhering to industry best practices for software development and project management.
3. To continuously learn and stay up-to-date with emerging technologies and industry trends, and to contribute to the startup's growth by identifying new opportunities for innovation, optimization, and automation of processes and workflows.

ACHIEVEMENTS

1. Developed and launched a web application from scratch, including both front-end and back-end development, that received positive user feedback and achieved a high user adoption rate
2. Successfully integrated multiple third-party APIs into a web application, improving its functionality and user experience.
3. Collaborated with cross-functional teams to deliver a project on time and within budget, utilizing agile methodologies and effective communication.
